About Me

I am a hardworking and ambitious individual with a good knowledge computer softwares , python and database. I am currently in my final year of studying Btech in electronics and communication at Bharti Vidyapeeth college of engineering. I have excellent communication skills, enabling me to effectively communicate with a wide range of people. I am looking forward to work in your company in which I can put my practical knowledge and experience for the benefit of your organization.

Education

2016 - 2020

Bharti Vidya Peeth College Of Engineering | B.Tech
(Electronics And Communication)

2012 - 2013

LILAWATI VIDYA MANDIR SR SEC SCHOOL | Class X

2014 - 2015

LILAWATI VIDYA MANDIR SR SEC SCHOOL | Class XII

Experience

2019(June) - 2019(August)

Lg. Electronics India Pvt Ltd | Digital Analytics And Big Data
Working in this department of this company I have a good knowledge

of python and database like SQL and Oracle. I have worked on machine learning. Here I have worked on two big projects along with smaller ones. One is based on database and other is based on python.

Projects

2017(June) - 2017(August)

Android Development | Application For Canteen Management

Here I made an android application to manage the canteen like including prices and bills and also how much food is utilised. This all the data was stored in a database and I was accessing it with the help of this application.

June(2018) - November (2018)

Project Management | Project Management

Here we learned the basic and importance of project management and hence it helped me in clear understanding of concepts and also why proper managing of projects is important.

August (2019) - November (2019)

Lg Electronics India Pvt Ltd | True Caller Sdk

Here with the help of python and machine learning we used truecaller app to get the data of any person who is registered on this app. We will get the data which he input at the time of registration. All the data will be stored in heroku app which will further process it in a database.

june - August

Database Management Of Company | Converting Oracle To Mariadb

Here I converted my Oracle database to mariadb which included conversion of my oracle codes to Maria db codes which means changing the codes and expressions like regexp for a better user experience.

aug 2019 - continue

Networking | Improving Throughout And Delay In Aodv (Major)

Here we are trying to improve throughput and delay of aodv routing protocols in manets .
