INTERSHIPS

- Trainee in APSPDCL, for a time period of 6 months on power transmission(certified).

PROFESSIONAL EXPERIENCE

- **PROJECT- I :**

Title: "Transforming Distribution System Performance: DSTATCOM for Enhanced Power Quality"

Description : "The causes of power quality issues often stem from intricate and challenging-to-detect factors, leading to an adverse impact on consumers. The deficiency in power quality manifests in various ways, including disruptions to production processes, equipment and appliance damage, and potential threats to human health. Thus, ensuring a consistently high standard of power quality becomes imperative. By maintaining stringent standards, businesses can mitigate the risks associated with power fluctuations, safeguarding both operational continuity and the well-being of individuals."

- **PROJECT - II :**

Title: "Women Security Assistance System with GPS tracking and Messaging System based on IOT"

Description: "I led a team in developing a Women Security Assistance System with GPS tracking and Messaging System based on IOT utilizing Arduino technology. The system is designed to build a band that can be worn by women, using which they can inform police or anyone, using SMS along with the current location."
