CAREER OBJECTIVE

Seeking employment as a Mechanical Engineer in which I can apply my problem solving skills and attention to detail to enhance product quality

EDUCATIONAL CREDENTIALS:

- Completed **B. Tech in Mechanical Engineering** passed in the year **2022** from **Bharat Institute of Engineering and Technology Hyderabad**, approved from **JNTUH**.
- Completed **Diploma in Mechanical Engineering** in the year **2018** from **Swami Ramananda Tirtha Institute of Science and Technology Nalgonda**, approved from **SBTET Telangana**.
- Completed **Matriculation** in the year **2015** from **St. John's High School Miryalaguda**.

TECHNICAL QUALIFICATION:

- Basic Knowledge on **CNC Lathe Machine**.
- Basic knowledge on **AutoCAD and GD&T**.
- Good in **MS Tools**.
- Good **Communication Skills**.

STRENGTHS:

- Critical thinking.
- Time management.
- Strong work ethic.
- Responsibility.

ACADEMIC PROJECT:

Pneumatic Paper Cup Making Machine.

Abstract: Plastic is an material which is very hazardous to the environment. With the help of this pneumatically operated machine paper cups are made from any kind of paper and leaves are also used for making cups. In a pneumatic system, energy is stored in a potential state in the form of compressed air. Working energy is produced in a pneumatic system when the compressed air is allowed to expand. So, in order to do work, a device is required which is able to supply an air tank with sufficient amount of air at a desired pressure. This device usually happens to be a positive displacement compressor. Above figure shows basic idea for cup making machine. Paper or paper pulp is raw material may be used here and the ram which has male die is operated by pneumatic circuit Or with help of Compressed Air.
