WORK EXPERIENCE

L&T Technology Services Ltd

ASSOCIATE ENGINEER

March 2024 - Nov 2024

As an Associate Engineer, will be responsible for supporting the design, development, and implementation of software and hardware solutions. Will work closely with senior engineers and cross-functional teams to develop and maintain systems and applications. This role requires strong analytical skills, attention to detail, and proficiency in various programming languages and platforms.

PROJECTS

Vehicle control system implementation using CAN protocol.

Developed a vehicle system that utilizes the Controller Area Network (CAN) protocol to achieve the Real-time engine temperature monitoring, Reverse alert system and Door glass window control.

Power quality improvement in the distribution system by using D-STATCOM.

In this project, we basically deal with the problems faced in Transmission line like Voltage sags, voltage swell, harmonics distortions. which will lead to Power quality problems. We have analyzed some problem and thus with the help of D-STATCOM in the system, we were able to improve the quality of the overall system

SKILLS

- Languages – C, C++, Embedded C, Modern C++, Basics of Python.
- Protocols – UART, I2C, SPI, CAN
- Operating System – Linux Operating System
- Tools – µvision Keil, GCC Compiler

CERTIFICATE

advanced Embedded systems training at Vector India Pvt Ltd-Hyderabad. [↗](#)

Completed a Course about Embedded Systems from Mind Luster [↗](#)

Completed a Soft Skill Course from Mind Luster [↗](#)

INTERNSHIP

Trained at "33/11 KV Substation, Kavali" for a period of two month.

ACHIEVEMENTS

- Participated in "National Cadets Corps (NCC)".
- I participated in the quiz representing the state of Andhra Pradesh.
- I participated in the state meet game representing Nellore district in the ball badminton game.
